

European Solar and Energy Storage Solutions

Greece lithium ion battery box

Overview

What is lithium ion battery packaging?

Our lithium ion battery packaging is suitable for different industries. The ORBIS IonPak is certified to transport solid dangerous goods. That includes lithium-ion batteries, airbags, belt tensioners and other automotive components that need certified packaging solutions for storage and transport.

What is a lithium battery shipping box?

The lithium battery shipping boxes are suitable for non-certified batteries, prototypes, battery cells, battery modules and batteries in equipment. For increased part protection, the batteries are stored in layers using customised interior packaging solutions that are developed to safely hold dangerous goods.

How much money is being invested in lithium-ion batteries?

An additional €20m is being invested in the production of lithium-ion batteries, with the installation of three highly automated assembly lines for lithium modules and complete lithium battery systems, as well as one assembly line for prototyping and R&D purposes.

Can ionpak transport lithium-ion batteries safely?

The ORBIS IonPak is suitable to transport lithium-ion batteries safely. The UN approved packaging is certified for solid dangerous goods in a variety of different industries. With a robust outer packaging, customised interior packaging and dust cover, our lithium battery shipping boxes optimise product flow in industrial supply chains.

Do you need a shipping box for lithium batteries?

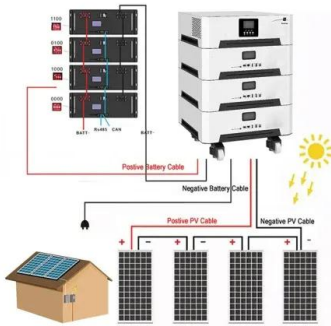

UN certified containers for transporting and storing lithium batteries are needed to comply with the regulations. ORBIS' lithium battery shipping boxes fully hold and protect the batteries from damage or shocks of any kind. That

includes isolating loose cables and poles.

What are the certifications for lithium ion battery packaging?

The certifications UN4H2/Y and UN50H/Y of the lithium ion battery packaging apply for recycled and primary materials. Safely transport lithium-ion batteries & solid dangerous goods with UN approved lithium ion battery packaging, like battery shipping boxes.
