

European Solar and Energy Storage Solutions

Greencells cee Chile

Overview

Greencells Group, based in , develops, finances and builds solar power plants worldwide. With an installed capacity of more as 2.4 gigawatts, the company is one of the largest solar groups in Europe.

Who is greencells group?

Greencells Group, based in Saarbrücken, develops, finances and builds solar power plants worldwide. With an installed capacity of more as 2.4 gigawatts, the company is one of the largest solar groups in Europe. The company was founded in 2009 by Andreas Hoffmann.

What does greencells do?

The Greencells Group is active in more than 25 countries and now employs more than 300 people. The 151 solar plants installed generate a total output of 2.4 gigawatts. To be able to guarantee the basic power supply with renewables, the company builds so-called hybrid power plants that combine solar energy with wind turbines and storage systems.

Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

What happened to greencells?

That was the beginning of the company Greencells GmbH, which he founded together with Marius Kisauer in 2009. Initially, Greencells only installed solar modules. In 2012, there was a crash and consolidation of the German solar market, which Greencells survived and grew against the market trend.

Why did greencells survive?

In 2012, there was a crash and consolidation of the German solar market, which Greencells survived and grew against the market trend. The reason for this was the expansion of its business areas. For example, Greencells entered

project development and focused on building large-scale solar plants abroad.

Why should you choose greencells?

Let Greencells be your asset manager and ensure the profitability and longevity of your PV system with our O&M and monitoring services. For projects with challenging ground conditions, we rely on our self-developed, customized installation structures. and helps in the fight against climate change.
