About us , Residential and Commercial

At Power Shift, we aim to empower Grenadians to move from energy derived from the burning of destructive fossil fuels to renewable energy from sunlight. This bold step allows Grenada to do its part in reducing the global carbon footprint thus contributing to a healthier world.

Solar power grenada

Solar power Grenada. Speaking to Climate Home News, Grenada's finance minister Gregory Bowen said successive governments were desperate to change this but had their hands tied by a privatisation deal made nearly 30 years ago. On advice funded by the World Bank, the current government pursued reforms to support renewables - only to be

Grenada's Renewable Energy Options - GRENLEC

Solar panels can be mounted on rooftops or the ground, and convert particles of light energy, known as photons, into direct current (DC) electricity. An inverter changes DC power into alternating current (AC) to power your home or facility.
