Overview

What makes Robustel a reliable wireless router?

Robustel's range of ruggedized Routers are industrial-grade, easy to deploy and optimized for reliable wireless connectivity for M2M/IoT applications. Robustel's range of IP67 outdoor gateways are integrated with LoRaWAN wireless communication and cellular network technology. This provides wireless long-distance data transmission.

What is a Robustel IP67 outdoor gateway?

Robustel's range of IP67 outdoor gateways are integrated with LoRaWAN wireless communication and cellular network technology. This provides wireless long-distance data transmission. Robustel's industrial-grade LoRaWAN gateways are designed to provide users with a reliable wireless end-point for their LoRaWAN networks anywhere in the world.

What is Robustel r1511 LTE gateway?

Robustel's R1511 LTE gateway has been adopted for Smaregi's 'Net Anshin BOX' service. It automatically switches to an LTE connection whenever the store's main internet line experiences issues, ensuring seamless store operations. Robustel's R1511 gateway enables this switch smoothly, maintaining stable connectivity.

What is bulletproof's strategic partnership with Robustel?

Robustel is pleased to announce a strategic partnership with Bulletproof. This alliance aims to fortify Robustel's security posture, ensuring the highest standards of protection for its customers' data and IoT devices.
