World Bank Funds Solar Farm in Guinea Bissau

The World Bank is supporting the development of Guinea-Bissau's first solar power plants, aiming to decarbonise electricity production and boost electrification. Under the Solar Energy and Access to Electricity Development Project, the World Bank will assist Guinea-Bissau until 2030 and has already approved a USD \$30 million grant.

Guinea-Bissau launches large-scale solar power

The project involves construction several solar power plants near the capital, Bissau, including a 30 MWp solar power plant. The plants will feature battery storage system to manage energy distribution effectively and support the electricity

system.

World Bank and partners fund solar projects in Guinea Bissau

Electricity-starved Guinea Bissau will get \$48m from the International Development Association, Green Climate Fund and Esmap to catalyse solar energy generation and improve on low levels of electricity access.
