NHPC Announces Winners of 1,200 MW Tranche VI FDRE Auction

It may be noted that in September 2024, Essar Renewables, Juniper Green Energy, Serentica Renewables, Hexa Climate Solutions, and Avaada Energy won NHPC's Tranche II auction for 1,200 MW of FDRE projects. This latest Tranche VI auction reflects NHPC's commitment to accelerating India's renewable energy transition.

Haiti Builds a Path to a Clean, Resilient Energy Future

In the face of these obstacles, Haiti is forging a path toward energy resilience with support from USAID and the National Renewable Energy Laboratory (NREL). Central to this effort is the development of energy modeling frameworks and trainings, microgrids, agrivoltaics, and off-grid solar power to enhance energy resilience and security in Haiti.

Haiti Builds a Path to a Clean, Resilient Energy Future

In a bid to reshape Haiti's energy landscape, USAID and NREL will support Haiti's ministries and government in formulating the country's Integrated Resource and Resilience plan, which is a comprehensive energy sector master plan that envisions a sustainable, secure, and resilient energy future for Haiti.

Juniper Green Energy starts up 105-MW solar farm in Maharashtra

Jalkot's output is estimated at around 200 million units annually, or enough to power over 38,000 households, Juniper Green Energy added. Juniper says it currently has around 1 GW of operational renewables in its portfolio, 500 MW of projects under construction and over 5 GW of wind, solar and hybrid projects in the development pipeline.

Haiti: Energy Country Profile

Haiti: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key ...
