Homepage

Hecate Grid is a leading independent power producer focused on developing, building, owning, and operating stand-alone energy storage projects in the US. Hecate Grid has already successfully permitted, constructed, and operates several energy storage projects.

Energy Storage

Enhancing Grid Efficiency: With instant dispatchability, energy storage serves as both a power source and a power consumer, adapting to demand fluctuations and optimizing grid efficiency. This improved operational flexibility reduces transmission congestion, enhances overall grid performance, and curtails system costs.

Hecate Energy

SANTA ANA, Calif., Oct. 4, 2021 -- Hecate Grid, a developer, owner and operator of cutting-edge utility-scale energy storage solutions, is excited to announce that it marked the completion of its Johanna Energy Storage System (ESS) with a ribbon-cutting ceremony at the project site in Santa Ana on Sept. 30.

Hecate Grid raises US\$99 million for energy storage deployment

Hecate Grid, an independent power producer (IPP) developing utility-scale battery storage assets, has raised US\$98.9 million through lenders. The company said yesterday (7 February) that it secured the credit facility package, which will be used to recapitalise its operational assets and for funding a Southern California portfolio of standalone

Hecate Energy, InfraRed Capital Partners start new energy storage

Hecate Energy and InfraRed Capital Partners have announced a partnership to form a new energy storage company called Hecate Grid, which will develop, build, own and operate utility-scale energy storage projects across North America.
