

## European Solar and Energy Storage Solutions

# How many power plants does Sinovel Wind Power have

## Overview

---

Sinovel was founded by Han Junliang who later became the first wind power billionaire after the IPO of the company in 2011. Initially capital of 100 million yuan was provided by a Chinese state-owned company, Dalian Heavy Mechanical & Electrical Equipment Engineering. , the first offshore in China, began operation in July 2010 using 34 3 Sinovel turbines.

Sinovel is the first Chinese enterprise to complete the development and production of 5MW and 6MW wind turbines with independent intellectual property rights. Sinovel supplied all 34 sets of 3MW wind turbines for the Shanghai Donghai Bridge Offshore Wind Farm project, which is the first offshore wind farm built outside of Europe and is also .

Sinovel is the first Chinese enterprise to complete the development and production of 5MW and 6MW wind turbines with independent intellectual property rights. Sinovel supplied all 34 sets of 3MW wind turbines for the Shanghai Donghai Bridge Offshore Wind Farm project, which is the first offshore wind farm built outside of Europe and is also .

Donghai Bridge Wind Farm, the first offshore wind farm in China, began operation in July 2010 using 34 3 MW Sinovel turbines. In December 2010, the Massachusetts Water Resources Authority ordered a 1.5 MW wind turbine to power a wastewater pumping station in Charlestown , Boston .

Wind power makes up about 10% to 20% of the sun's total energy. Part of the sun's radiant energy is converted into biotic energy by plants, while 50 to 100 times that amount of energy is converted into wind power.

Sinovel exploring overseas market with two projects progceeding smoothly. Sinovel Northwest Base resumed production with new technology, new product and new service. Sinovel Cooperates With Mita-Teknik to Co-Develop Innovative Wind Turbine Control Systems.

As of 2021, the cumulative installed generating capacity of Sinovel wind turbines reached a total of 17,087.5MW which ranked 4th in the domestic market, the cumulative installed offshore generating capacity of Sinovel wind turbines reached a total of 170MW, the cumulative installed generating capacity of Sinovel wind turbines in overseas market . Who manufactures

Sinovel wind turbines?

Sinovel Wind Group Company manufactures Sinovel wind turbines. It is a Chinese wind turbine manufacturer headquartered in Beijing and is the largest wind turbine manufacturer in China. So far, Sinovel had installed wind turbines with a total joint capacity of over 45GW worldwide.

How many MW of wind energy does Sinovel produce?

In 2011, with close to 3000MW of newly installed capacity, Sinovel surpassed 5% of the total global installed capacity meaning that 1 out of every 20 MW of wind energy capacity installed in the world is produced from a Sinovel wind turbine.

Does Sinovel supply spare parts for wind turbines?

Sinovel also supplies spare parts for wind turbine operations. The company has operations in the Americas, Europe, Asia, and Africa.

Who is Sinovel wind group?

Sinovel Wind Group Co Ltd (Sinovel) is a provider of equipment and services in the renewable energy field. The company designs, manufactures, develops and commercializes large-scale onshore, offshore and intertidal wind turbines.

How many MW does Sinovel have?

With robust growth, Sinovel manufactured and erected a total capacity in excess of 1400MW in 2008, which ranked #1 in China and #7 in the world. In 2009 the newly installed capacity of Sinovel was over 3500MW, maintaining its #1 position in China and ascending the global rankings to #3 in the world.

Is Sinovel a Chinese company?

Sinovel Wind Group Company (Chinese: 金风科技) is a Chinese state-owned wind turbine manufacturer headquartered in Beijing. Sinovel is affiliated with a Chinese state-owned company, Dalian Heavy Mechanical & Electrical Equipment Engineering. It was founded in 2005 by Han Junliang.
