

European Solar and Energy Storage Solutions

Hta energy solution Mozambique

Overview

How will Mozambique's \$80 billion energy transition strategy work?

At COP28 in Dubai, H.E. President Filipe Nyusi said, “Mozambique’s \$80 billion energy transition strategy will leverage the country’s vast renewable resources to position the country as a sustainable investment destination and deliver energy to its people.”.

What is Mozambique's energy potential?

In this new age of industrialisation, Mozambique’s energy potential places the country at the forefront of global energy investments. As it continues to develop its infrastructure and expertise in energy production, Mozambique is set to play a pivotal role in meeting future energy demands.

Why is Mozambique a key player in energy development?

As it continues to develop its infrastructure and expertise in energy production, Mozambique is set to play a pivotal role in meeting future energy demands. With significant projects in the pipeline, the country’s readiness and commitment to energy development make it a key player in the global energy transition.

Is Mozambique ready for energy transformation?

As the world shifts towards cleaner and more sustainable energy, Mozambique is positioning itself at the centre of this transformation, ensuring its energy projects are both ready and fully implemented to meet the growing demands of domestic, regional and the global market.

What is the Mozambique Gas & Energy Summit & exhibition?

The Mozambique Gas & Energy Summit & Exhibition’s mission is to provide a thought leadership platform promoting key investments and business opportunities within Mozambique’s energy sector. The country is leading energy exports in the region and the Summit will attract all key stakeholders

from across the local and international energy value chain.

Will ExxonMobil build Rovuma LNG plant in Mozambique?

In early September ExxonMobil gave the go-ahead to two consortia to launch a front-end engineering and design (FEED) contest on its huge Rovuma LNG project in Mozambique. At the end of which one consortium will be awarded a prestigious contract to build the 18 million tonnes per annum plant.

HTA ENERGY AER

Conception et construction de réseaux électriques. Participant activement à la transition énergétique, HTA ENERGY AER propose des services de conception et de construction de réseaux électriques.. Travaillant pour le compte des professionnels, notre principale mission est la distribution de l'énergie électrique et l'installation de réseaux aériens.

Delivering Mozambique's Sustainable Energy Future

Mozambique's energy transition is based on four strategic pillars including: 1. Expanding clean energy expansion capacity through wind, hydroelectric projects and solar power plants to offset fossil fuels predominance; 2. Capitalising on green industrialisation through integrated projects around industrial corridors such as the

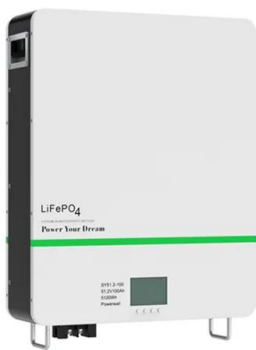

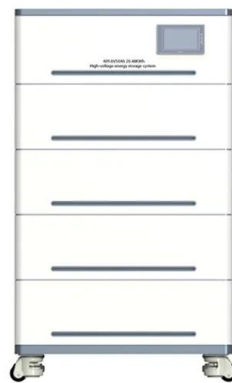

Nacala

BRILHO Programme Provides Clean Energy to Three Million

...

BRILHO is a five-year programme, 2019-2024, that seeks to catalyse Mozambique's off-grid energy market in order to provide affordable clean energy solutions for the country's off-grid population. The overall aim of the initiative is to improve the lives of low-income people through savings, well-being and livelihood opportunities.
