

European Solar and Energy Storage Solutions

Huawei Cameroon Microgrid

Overview

Cameroon Water Resources and Energy Ministry is responsible for formulating the plan and strategy of energy and water resource supplies, developing, and managing specific projects for this African nation's energy and water resources.

Cameroon's electricity development has been quite slow; the areas covered by electrification are only 28 percent of the country's territory, and 80 percent of the power is concentrated in the capital of Yaoundé as well as the.

Huawei — with strong technical capabilities in the field of photovoltaic inverters, along with continuous technological innovations and long-term accumulated experience.

After completion of the project's phase I, Huawei Microgrid Solar Solution now helps 166 villages (and over 120,000 people) benefit from electricity in Cameroon; the average.

Huawei Cameroon Microgrid

Rural Cameroon Uses Microgrid Solar , Huawei Enterprise
