lec energy Ivory Coast

Overview

Energy in Ivory Coast concerns the production and export of energy and electricity in the Ivory Coast. The country has a capacity of 2,200 (MW) energy production. Unlike other countries in , the is a reliable power supplier in the region, exporting electricity to neighbouring countries such as , , , and . Ivory Coast aims to produce enough by 2030 to reduce its by.

Does Ivory Coast have a reliable power supply?

Unlike other countries in sub-Saharan Africa, the Ivory Coast reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali. Ivory Coast aims to produce enough renewable energy by 2030 to reduce its greenhouse gas emissions by 28%.

How much energy does Ivory Coast produce?

Energy in Ivory Coast has a capacity of 2,200 megawatts (MW) energy production. Unlike other countries in sub-Saharan Africa, the Ivory Coast reliable power supply in the region, exporting electricity to neighboring Ghana, Burkina Faso, Benin, Togo, and Mali.

Who owns the Ivory Coast electricity company?

With 4 995 employees in 2022 and 54.02% owned by Eranove, the Ivory Coast Electricity Company (CIE) is a private provider that has been linked to the Ivory Coast's government by a concession agreement since 1990.

What is the standard voltage in Ivory Coast?

In Ivory Coast the standard voltage is 230 V and the frequency is 50 Hz. You can use your electric appliances in Ivory Coast, if the standard voltage in your country is in between 220 - 240 V (as is in the UK, Europe, Australia and most of Asia and Africa). Manufacturers take these small deviations into account.

Iec energy Ivory Coast

Energy in Ivory Coast

Ivory Coast aims to reach 400 MW in generating capacity from solar power by 2030. [4] The country is building the Boundiali Solar Power Station, which will have a capacity of 37.5 megawatt-peak (MWp). [3] List of power stations in Ivory Coast
