Guinea-Bissau

Guinea-Bissau is a coastal country in West Africa with a population of 1.8 million people and a life expectancy at birth of 57 years (male) and 60 years (female). A single-crop economy and political instability give it one of the lowest Human Development Indices in the world, and key health indicators have improved at very slow rates, compounded by low investment by the

Ministry of ...

Guinea-Bissau

should be reviewed. Based on this approach, Guinea-Bissau scores 51.9 out of 100.0. The overall score for Guinea-Bissau is lower than the regional average observed across Sub-Saharan Africa (74.0). Within the Sub-Saharan Africa region, the maximum score observed is 97.5 (Togo). Guinea-Bissau - Scores for Women, Business and the Law 2024

Guinea Bissau

In 2021, Guinea Bissau imported more than half a million kg of frozen chicken and approximately 29 million eggs. The investments proposed under the HiHI aim to increase local production by empowering existing production facilities (17 for poultry and 4 units producing eggs, had been identified) and increasing their capacity to produce better
