# Installation of courtyard solar power generation system

## Overview

---

Does Marriott have solar power?

At 133 rooms, the Courtyard by Marriott-Lancaster is the first Marriott-branded hotel in the United States with 100 percent of its electricity needs generated from solar power. It is also believed to be the first solar array in the country installed for the sole purpose of generating 100 percent of the electricity needs of a hotel.

Will solar power save the courtyard Lancaster?

Recently the Courtyard Lancaster was refitted with LED lighting, reducing total electricity consumption by about 15 percent. With the lower demand, it's expected that the solar panels' generation will well exceed the hotel's needs, thus putting even more power back in the grid for use by others.

How do I prepare for a solar panel installation?

Installing solar panels helps homeowners save money and invest in cleaner energy. To prepare for an installation, determine your energy needs and home compatibility with a solar panel system. The installation requires complicated electrical work and paperwork that any reliable solar installer can handle.

Which hotel has 100 percent solar power?

At 133 rooms, the Courtyard by Marriott-Lancaster at 1931 Hospitality Drive is the first Marriott-branded hotel in the United States with 100 percent of its electricity needs generated from solar power.

How do I choose a solar panel system for my home?

Before you size a solar panel system to fit your energy needs, consider undergoing a home energy audit to uncover anything that makes your home less efficient. Switching to energy-efficient lighting and appliances or weatherizing your home may help to lessen your electricity expenses. 2. Determine if your home is structured for solar.

Why did high install a solar meter in the hotel lobby?

The Marriott's solar array of 2,700 panels is more than two football fields in size, which is too big for the roof of the hotel. So High placed the system on the roof of a warehouse near the hotel within Greenfield. To enable hotel guests to see how much power the system is producing in real time, High installed a meter in the hotel lobby.
