Iraq our world energy

Overview

Energy in Iraq plays a crucial role in both the national economy and the global energy markets due to the country's vast oil reserves and significant status within the (OPEC). Iraq holds abundant oil and gas resources and has strong potential. Its production to 2030 is set to be the third largest contributor to global oil supply. By the same year, the government e.

Iraq our world energy

Oil reserves

Shown are the total proven reserves of oil, in tonnes. This is oil that we know with reasonable certainty can be recovered in the future under existing economic and operating conditions. Proven reserves decrease when we extract oil, and increase as new resources are discovered or become economically viable to extract.

Country Analysis Brief: Iraq

o Iraq consumed an estimated 2 quadrillion British thermal units of total primary energy in 2021, making it the fifth-largest energy consumer in the Middle East behind Iran, Saudi Arabia, the United Arab Emirates, and Qatar.

Energy Overview: Development news, research, data , World Bank

Renewable energy is always our first choice when considering energy investments. Between FY17 and FY24, the World Bank Group has directly financed nearly \$16.4 billion for renewables--a steady increase from \$1.4 billion in FY17 to more than \$3 billion in FY24. Globally, our current programs have provided access to electricity to 171 million

Country Analysis Executive

Summary: Iraq

o Iraq consumed an estimated 2 quadrillion British thermal units of total primary energy in 2021, making it the fourth-largest energy consumer in the Middle East behind Iran, Saudi Arabia, and the United Arab Emirates.

Iraq's Energy Sector: A Roadmap to a Brighter Future

It also takes a detailed look at the country's oil and gas sector, projecting that Iraq's oil production will grow by 1.3 million barrels a day by 2030, becoming the world's fourth-largest oil producer behind the United States, Saudi Arabia and Russia.

Iraq's Energy Sector: A Roadmap to a Brighter Future

Power outages in Iraq remain a daily occurrence for most households, as increasing generating capacity has been outrun by the increasing demand for electricity, spurred by greater cooling needs in the peak summer months.

Iraq Energy Outlook

Iraq Energy Outlook World Energy Outlook Special Report Iraq is already the world's third-largest oil exporter. It has the resources and intention to increase its oil production vastly. Contracts are already in place. Will Iraq's ambitions be realised? And what would the implications be for Iraq's economy and for world oil markets?
