JA Solar Power Plant

Overview

Where is JA Solar based?

PHOENIX, AZ (January 10, 2023) — JA Solar, a global solar cell and module manufacturing leader, announced today it has leased space for its first manufacturing facility in the U.S. in Phoenix, Arizona. The new facility will produce high-performance photovoltaic (PV) products, and is expected to be operational by Q4 2023, creating over 600 new jobs.

Will JA Solar build a new solar plant in Arizona?

Sign up for daily news updates from CleanTechnica on email. Or follow us on Google News! Chinese solar giant JA Solar has announced plans to build a new manufacturing facility in Phoenix, Arizona that will produce high-performance photovoltaic (PV) solar panels. The new JA Solar plant represents a \$60 million investment in Arizona manufacturing.

What types of PV power plants does JA Solar offer?

At JA Solar we specialize in multi-form photovoltaic (PV) power plants, including conventional centralized PV power plants, Agri Voltaics , Floating Solar PV power plants, and and other forms.

Where can JA Solar products be used?

JA Solar products are available in 135 countries and regions and are used extensively in ground-mounted power plants, commercial & industrial rooftop PV systems and residential rooftop PV systems.

When will JA Solar start production in Phoenix?

The Phoenix factory will manufacture high-efficiency solar PV modules for commercial and residential rooftop applications and utility-scale power plant projects, according to the announcement. JA Solar expects to start operations by the fourth quarter of 2023. “Arizona is proud to welcome JA Solar’s first U.S. manufacturing facility to Phoenix.

Will JA Solar open a US factory?

China's JA Solar, the world's fourth-largest solar panel maker by capacity, is going to open its first factory in the US – a major win for the Biden administration, which has created a domestic clean energy manufacturing growth boom with laws passed late last year.

Home Energy Storage (Stackble system)

- 
High Efficiency
- 
Easy Installation
- 
Safe and Reliable
- 
Perfect Compatibility

Product Introduction

-  Scalable from 10kWh to 50kWh
-  LFP battery, safest and long cycle life
-  Self-Consumption Optimization
-  Stackable design, effortless installation
-  Integrated with inverter to avoid the compatibility problem
-  Capable of High-Powered
-  Emergency-Backup and Off-Grid Function
