JA Solar Production Dry Storage

Overview

What is JA Solar's production capacity?

Module manufacturer JA Solar has reached respective wafer and module production capacities of 1.5GW and 3.5 GW in Vietnam, the company said in an online shareholder meeting. JA Solar said another 3.5GW of cell capacity should be operational by the end of June. The company also has 1.5GW of cell capacity in Malaysia.

Is JA Solar a profitable company?

With a weighted average ROA of 22.52%, its profitability remains industry-leading. As of Q1 2024, JA Solar has achieved a cumulative shipment of 201GW, and its production capacities across silicon wafers, cells, and modules are set to surpass 100GW each in 2024.

Will JA Solar & IDG Energy Invest in cell manufacturing?

JA Solar is expected to put another 3.5GW of cell capacity into operation by the end of June and Hong Kong-based IDG Energy Investment will venture into cell manufacturing by establishing a “foreign invested” project company.

What are JA Solar Products?

JA Solar Products offer a range of solutions including Solar Panel Kits (Roof Top, Ground Mount, Top of Pole Mount), Solar Panels (Monocrystalline, Polycrystalline), Inverters (Micro, String, Hybrid), Battery Based Pre-Wired Systems, Inverter Monitoring Gateways, Meters, Displays, Controllers, and Communications Cards.

Where can I find the specifications of the JA Solar products?

You can find the specifications of JA Solar's JAM60S10 Half-Cell Module on their official website: Please note that specifications are subject to technical changes and tests, and JA Solar reserves the right of final interpretation.

What will JA Solar do in 2024?

As of Q1 2024, JA Solar has achieved a cumulative shipment of 201GW, and its production capacities across silicon wafers, cells, and modules are set to surpass 100GW each in 2024. With a projected shipment target of 85-95GW, its scale manufacturing advantage will further solidify.
