Kstar launches all-in-one residential battery inverter solution

KSTAR's new line of residential hybrid storage systems integrates Kstar inverter technology with the lithium-ion storage technology of Chinese battery specialist CATL. Chinese inverter manufacturer Kstar has unveiled a new series of residential hybrid storage systems that integrates its own inverter tech and the lithium-ion storage solutions of

About Us

Founded in 1993, KSTAR is a leading brand in power electronics and new energy fields, with a profile of data center critical infrastructure (UPS, battery, precision air conditioners), modular data center solutions, PV solutions and energy storage solutions.

General Purpose Batteries- KSTAR

KSTAR is a leading brand in power electronics and new energy fields, with a profile of data center critical infrastructure (UPS, battery, precision air conditioners), modular data center solutions, PV solutions and energy storage solutions.

BluePulse Series KAC50DP- BC100DE

KSTAR BluePulse Series is an all-in-one ESS dedicated to small to medium commercial and micro-grid solutions. Powered by CATL battery cells, the KAC50DP-BC100DE outshines competitors with exceptional safety, efficiency, and flexibility.

KSTAR 12V 80AH Battery Price in Bangladesh

Low maintenance: The KSTAR 12V 80AH UPS Battery is a sealed maintenance-free battery, which means it does not require regular watering or electrolyte checks. **Safety features:** The KSTAR 12V 80AH UPS Battery is equipped with safety features to protect against overcharging, over-discharging, and short circuits.

Gel Batteries for UPS Systems , Reliable & Maintenance-Free

KSTAR is a leading brand in power electronics and new energy fields, with a profile of data center critical infrastructure (UPS, battery, precision air conditioners), modular data center solutions, PV solutions and energy storage solutions.

Battery-KSTAR

KSTAR launches first residential lithium-titanate battery

KSTAR has announced the launch of the market's first residential lithium-titanate (LTO) battery. The battery features a high cycle level of 16,000 over 25 years, consistent with the standard life cycle for PV modules, and is able to operate at temperatures as low as -40 degrees. This is

compatible with KSTAR's existing BluE-S5000D and E10KT

Commercial and Industrial Energy Storage Solution

Integrated with a CATL LFP battery solution, the smart solution provides safe energy storage and management of power generation output. The system features 1+1 redundancy of batteries, with a cluster cabinet containing 2*51.2KWH batteries connected in parallel with other clusters to allow for switching in the event of failure.

Products-KSTAR

The BluE-S series is an all-in-one CATL battery module with a KSTAR inverter, with low maintenance costs and easy installation. The single-phase hybrid inverter features an intelligent modular design and online monitoring via the ESS app, as well as a programmable time of use tariff in certain countries - charging at night at off-peak then in
