Our national and international experience and the use of top quality products make us the **PREFERRED CHOICE** of many people and companies. Bet on solar photovoltaic energy and obtain insured benefits! Why a hangar?

.

Who has power in Kyrgyzstan?

Executive power in Kyrgyzstan lies with the government, its subordinate ministries, state committees, administrative agencies and local administrations. In the energy sector, the government: Grants and transfers property rights, and rights for use of water, minerals and other energy resources.

Why should you choose prosolia energy?

Our multicultural team, comprising highly qualified and experienced professionals, drives our continuous advancement in delivering cutting-edge solutions to our clients. Prosolia Energy aspires to be an international Independent Power Producer (IPP), providing decarbonized solutions to meet the diverse energy needs of our clients.

Is Kyrgyzstan a member of the World Trade Organization?

Kyrgyzstan has been a member of the World Trade Organization since 1998, and it joined the Russian Federation ("Russia"), Belarus, Armenia and Kazakhstan in the Eurasian Customs Union in 2015. The energy sector represents 4% of GDP and 16% of industrial production, and hydropower accounts for two-thirds of energy production.

When will the Phase 1 project be implemented in Kyrgyz Republic?

The Phase 1 project will be implemented during 2024-2028 by the Ministry of Energy of the Kyrgyz Republic, in compliance with strict international standards including procurement and financial management regulations and anti-corruption guidelines.

How much does Kyrgyz energy project cost?

The project has a multi-phase programmatic approach with a financing envelope of \$125.7 million over 10 years. The first phase of the project will focus on supporting the Kyrgyz Republic to increase hydropower generation and enable renewable energy integration by strengthening the country's transmission systems.
