

European Solar and Energy Storage Solutions

Laos energy and infrastructure companies

Overview

Does Laos have a solar power plant?

In addition to hydropower, Laos has also been exploring other renewable energy sources, such as solar and biomass. The country's first large-scale solar power plant, with a capacity of 10 MW, was commissioned in 2018, and several other solar projects are currently under development.

Is Laos a power hub?

As part of the Greater Mekong Subregion (GMS) and the Association of Southeast Asian Nations (ASEAN) Power Grid, Laos has been actively participating in cross-border power trade and interconnection projects. The country's strategic location, combined with its abundant hydropower resources, makes it an ideal hub for regional power trade.

What is the Laos construction & infrastructure report?

The report presents a comprehensive analysis of Laos Construction and Infrastructure activities. Key trends and critical insights into Laos Construction and Infrastructure markets, along with key drivers, restraints, and growth opportunities are presented in the report.

Why is Laos a good hub for regional power trade?

The country's strategic location, combined with its abundant hydropower resources, makes it an ideal hub for regional power trade. In fact, Laos currently exports around 70% of its electricity to neighboring countries, and this figure is expected to rise in the coming years as more hydropower projects come online.

How is Laos promoting hydropower development?

The Lao government has been actively promoting hydropower development, both for domestic consumption and for export to neighboring countries, such as Thailand, Vietnam, and Cambodia. In addition to hydropower, Laos has also

been exploring other renewable energy sources, such as solar and biomass.

How can Laos improve its construction and infrastructure market size?

The ongoing trend towards modernization of Construction and Infrastructure through renovation projects, new building construction, and other civil projects are supporting Laos to strengthen its Construction and Infrastructure Market size. The report presents a comprehensive analysis of Laos Construction and Infrastructure activities.
