### FAQs

Is Brooklyn Microgrid a business? Brooklyn Microgrid is a registered benefits corporation, meaning that the company aims to create a positive impact on the environment and society. Brooklyn Microgrid is part of LO3 Energy. What role does Con Edison play? Con Edison plays the important role of maintaining and operating the electrical grid that

### Designing microgrid energy markets: A case study: The Brooklyn

The BMG project, run by LO3 Energy, 3 consists of a microgrid energy market in Brooklyn, New York. Currently, participants in the BMG are located across three distribution grid networks in the BMG's region as shown in Fig. 4 (a). Severe weather events (e.g. hurricanes, heat waves, etc.) increase, which raises operation issues of the (already

### How the Brooklyn Microgrid and TransActive Grid are paving ...

LO3 Energy hopes to scale Brooklyn Microgrid to over 1000 participants by 2018 and intends to have Brooklyn Microgrid serve as a stand-alone effort that will continue. LO3 Energy has contracted with a number of other pilots nationally and globally. These projects are not yet public but are anticipated to be announced later in 2017.

## Brooklyn Microgrid , Community Powered Energy

Brooklyn Microgrid (BMG) is an energy marketplace for locally-generated, solar energy. The BMG marketplace allows prosumers (i.e. residential and commercial solar panel owners) to sell the excess solar energy they generate to NYC residents who prefer using renewable, versus fossil fuel, energy. Brooklyn Microgrid's mission is to assist in the

## Brooklyn Microgrid , Community Powered Energy

BMG was created by parent company, LO3 Energy, to reimagine the traditional energy grid model by incorporating the concept of a communal energy network in which residential and commercial New Yorkers can buy and sell locally-generated, renewable energy. Brooklyn Microgrid aims to positively impact society, workers, the community, and the

## Siemens invests in LO3 Energy and strengthens existing partnership

LO3 Energy, an energy-tech company set to disrupt energy grids across the globe, announced an investment from Siemens closing out its series A. In late 2015 Siemens and LO3 started collaborating on projects beginning with the Brooklyn Microgrid.

## Designing microgrid energy markets: A case study: The Brooklyn

**12.8V 100Ah**

The BMG project, run by LO3 Energy, 3 consists of a microgrid energy market in Brooklyn, New York. Currently, participants in the BMG are a blockchain-based microgrid energy market in Brooklyn, New. ## Siemens Partners with LO3 Energy on Blockchain Microgrid

Siemens and the New York startup LO3 Energy are working to jointly develop microgrids that enable local energy trading based on blockchain technology. Siemens is involving its next47 unit, which was established in October as part of an ecosystem for partnerships with startups to take a leading role in the evolving decentralized energy system market. As a ...

## Brooklyn Microgrid Moves Ahead with Pilot

LO3 Energy is moving ahead with a 12-month regulatory sandbox pilot program for its Brooklyn Microgrid project. The pilot program will allow participants in the microgrid project to trade energy attributes on LO3 Energy's software platform. LO3 has run Brooklyn Microgrid as a test project since 2016. The project began in the Park Slope

## Smart Grids and Energy Storage: A Microgrid Grows in Brooklyn

feed excess electricity back to the local grid and receive payments from the purchasers.

## The Brooklyn microgrid: blockchain-enabled community power

In Brooklyn, LO3 Energy has teamed up with Siemens to create a pilot microgrid using blockchain technology. Residents with solar panels can sell excess energy back to their neighbours, in a peer-to-peer transaction which takes advantage of blockchain .
