# Longi Solar Panel Voltage

## Overview

---

The application level of LONGi Solar module is Class II, which can be used in systems operating at > 50 V DC or >240 W, where general contact access is anticipated; When the modules are for rooftop application, it is necessary to take the overall fire rating of the finished structure as well as operation and maintenance into account.

LONGi is a world leader in the clean energy transition. We provide a comprehensive suite of solar PV solutions that can optimize a wide range of project applications.

Uniform smart soldering increases the power and efficiency of the module, and improves the power load capacity. Solutions Utility-Scale Solar Power Plants.
