---

### Apex, Powin to build two energy storage projects in Texas, US

Apex Clean Energy and energy storage platform provider Powin have agreed to develop two new battery storage projects in Texas. The projects, known as Angelo Storage and Great Kiskadee Storage, will have a combined capacity of 400MWh and will support grid reliability in the electricity reliability council of Texas (ERCOT) market.

### Primergy secures \$225m for US solar storage portfolio

Utility-scale solar and battery storage projects developer Primergy Solar has secured \$225m in project financing for its Valley of Fire (VoF) portfolio in the US states of Nevada, Colorado and Arizona. In October 2024, Primergy closed commitments for \$350m in tax equity financing for the 408 MWac Ash Creek solar project in Hill County, Texas.

### OCI Energy and CPS Energy to launch 120MW BESS in Texas

CPS Energy has partnered OCI Energy to build a 120MW/480 megawatt hours battery energy storage system (BESS) in Texas, US. The project, named Alamo City ESS LLC, will be developed in southeastern Bexar County and become operational by late 2026.

## Notrees Wind Farm

The Notrees Wind Farm - Battery Energy Storage System is a 36,000kW energy storage project located in Goldsmith, Texas, US. Skip to site menu Skip to page content. PT. Menu. Search. Sections. Home; News; Analysis. Features. Comment & Opinion. Projects. The electro-chemical battery energy storage project uses lithium-ion as its storage

## Goldman Sachs-backed developer Gridstor builds Texas BESS

Gridstor, a US-based developer and operator of grid-scale battery storage systems, has kicked off construction of its first project in the Texas ERCOT market. The developer said last week (17 October) that construction is underway on the Hidden Lakes Reliability Project 220MW/440MWh standalone battery energy storage system (BESS) in Texas

## In a bid to bolster the grid, Texas charges ahead on battery storage

Battery energy storage systems (BESS) store and hold energy until it's needed, but they are proving to be key to solving grid capacity and resilience issues, as energy demand skyrockets

### Home Energy Storage (Stackble system)

  
High Efficiency

  
Easy installation

  
Safe and Reliable

  
Perfect Compatibility

**Product Introduction**

-  Scalable from 10kWh to 50kWh
-  Self-Consumption Optimization
-  Integrated with inverter to avoid the compatibility problem
-  LFP battery safest and long cycle life
-  Stackable design for easy installation
-  Capable of High-Powered Emergency Backup and Off-Grid Function

## Australian government supports six new battery storage projects

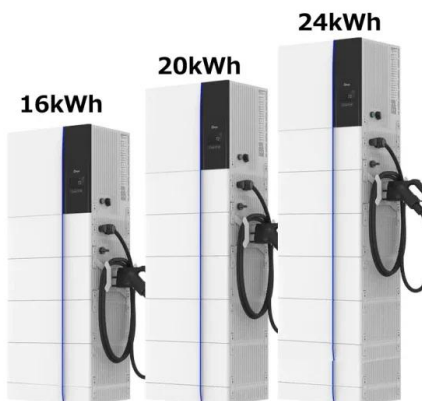

The projects, which are conditional on signing a capacity investment scheme agreement, are

expected to commence operations by mid-2027. The CIS aims to encourage new investment in renewable energy dispatchable capacity, such as battery storage and generation from solar and wind, to meet growing electricity demand and fill reliability gaps as older coal ...

## Reducing battery procurement risk for US energy storage projects

The passing of the Inflation Reduction Act in August of 2022 included provisions that are significantly impacting the utility-scale battery storage industry. This includes the decoupling of storage from solar projects, allowing for standalone energy storage projects to qualify for Investment Tax Credits (ITC) up to 30%.

## Energy Vault plans 57MW BESS in Texas in 2025

Gridmatic has contracted to operate more than 300MW of BESS projects across the ERCOT and California Independent System Operator markets. Energy Vault chair and CEO Robert Piconi said: "Owning energy storage infrastructure plays a critical role in our commitment to deliver long-term, sustainable shareholder value while allowing the company to ...

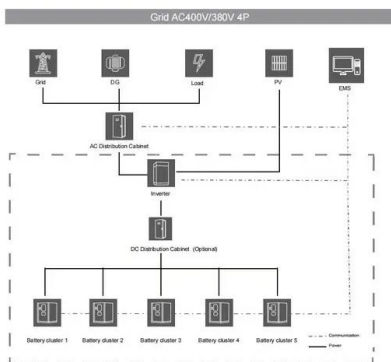

## Battery energy storage in Texas

Texas has more battery storage projects planned

than any other state, with 19.7 GW worth of additional capacity expected to come online in the next couple years. Battery storage systems have proven their value to the Texas market by increasing reliability and reducing costs while allowing for greater stability in the integration of renewable

51.2V 300AH

## Q CELLS' first step into large-scale battery storage is acquisition of

Meanwhile, other recent projects covered by this site in Texas include two 100MW / 100MWh standalone battery storage projects commissioned a few weeks ago by independent power producer (IPP) Broad Reach Power and a solar-plus-storage power plant with 275MW of PV and 125MW of storage under construction by National Grid Renewables and ...

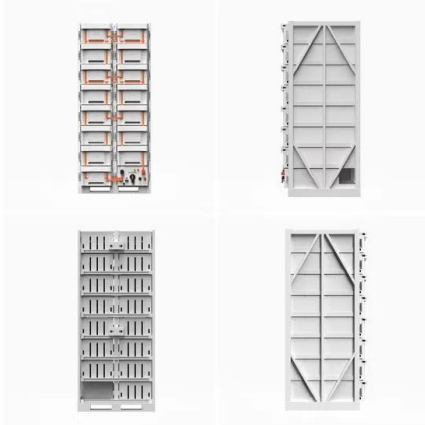

## Texas energy storage dash brings 1 GW batteries within sight

Texas will host some of the largest batteries in the U.S., including Solar Proponent's 621 Lunis Creek and 600 MW Clear Fork Creek projects and Hecate Energy's 600 MW Ramsey Storage project, all

## Intersect Power closes US\$837 million financing for ...

US solar PV and energy storage project developer Intersect Power has closed two financing deals worth US\$837 million for three

battery energy storage system (BESS) projects in Texas. The trio of projects are 2 ...

## Texas Waves Energy Short Duration Battery Energy Storage Project ...

E.ON Climate & Renewables North America and Greensmith Energy Management Systems have delivered the battery energy storage project. Additional information. Texas Waves consists of two 9.9 MW short duration energy storage projects using lithium-ion battery technology and will be an integral part of the wind farm facilities near Roscoe, Texas.

## Utility Georgia Power completes build-own-operate battery project

Mossy Branch is also the first standalone battery storage asset connected to the Georgia Integrated Transmission System electricity grid. It will charge directly from the grid when power is cheaper, such as during periods of abundant renewable energy generation and low demand, and discharge stored energy to the network when demand and prices are higher.

## Intersect Power closes US\$837 million financing for 'portfolio

US solar PV and energy storage project developer Intersect Power has closed two financing deals worth US\$837 million for three battery energy storage system (BESS) projects in Texas. The trio of projects are 2-hour duration systems, each of 320MWh storage capacity (160MW power output), scheduled to go into commercial operation during this year.

## Over 500 MWh standalone battery storage facility enters operation in Texas

The Madero and Ignacio energy storage plants have combined power capacity of 200 MW. The grid storage projects will participate in the retail energy power market in the Electric Reliability Council of Texas (ERCOT) grid.

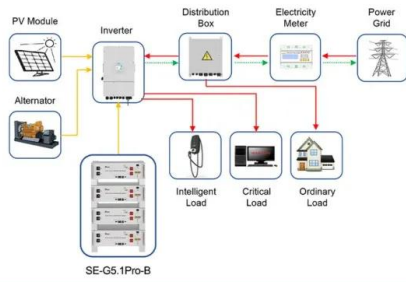

## Huge Texas battery energy storage facility begins operation

Spearmint Energy began construction of the Revolution battery energy storage system (BESS) facility in ERCOT territory in West Texas just over a year ago. The 150 MW, 300 MWh system is among the largest BESS projects in the U.S. Spearmint broke ground in December 2022 on Revolution in partnership with Mortenson, the EPC on the project.

## KCE TX 12 Battery Energy Storage System, US

The KCE TX 12 Battery Energy Storage System is a 100,000kW energy storage project located in Travis County, Texas, US. Skip to site menu Skip

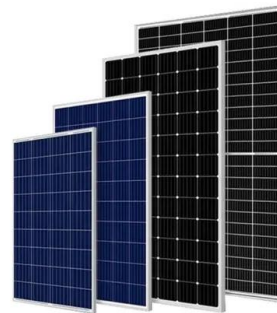

Application scenarios of energy storage battery products

to page content. PT. Menu. Search. Sections. The electro-chemical battery energy storage project uses lithium-ion as its storage technology. The project will be commissioned in 2021.

## Enel begins construction of gigawatt of hybrid renewables-plus-battery ...

The news follows the March announcement that construction had begun on Azure Sky wind-plus-storage project in Throckmorton County, Texas, pairing 350MW of wind generation with "approximately 137MW of battery storage" and with cereal company Kellogg's signed up as an off-taker for 100MW of its output through a long-term power purchase ...

## Sungrow awarded supply contract for one of Texas' largest battery ...

The project's owner is Astral Electricity, an energy storage power producer, while Able Grid will provide operational asset management services for the system. At the time of that report last summer the project was the largest standalone battery storage project announced so far in the state of Texas. Early moves to capitalise on the ERCOT

## Spearmint Energy acquires battery storage project in Texas

It will deliver battery energy storage capacity for the state's Electric Reliability Council of Texas (ERCOT) market. Spearmint founder, president and CEO Andrew Waranch said: "We are pleased to call a project of this calibre - located not only next to one of the largest wind turbine developments in the US, but also a massive solar field - our first, as it demonstrates ...

## Energy Vault plans 57MW BESS in Texas in 2025

Energy Vault has disclosed plans for a 57MW/114MWh battery energy storage system (BESS), named Cross Trails BESS, in Scurry County of Texas, US. Construction is set to start in the first quarter (Q1) of 2025, with commercial operations expected ...

## Texas Grid Gets a Boost: GridStor Acquires 450 MW ...

GridStor, a prominent developer and operator of utility-scale battery energy storage systems, has announced the acquisition of a substantial project in Galveston County, Texas. The project, known as the Evelyn Battery ...
