LPR Series 19' Rack Mounted

Waste to Energy

Jacobi's series of speciality activated carbons for various applications, such as acid gases, basic gases, formaldehyde, mercury, and odour control. This series features our industry leading grades for the personal and collective protection industry too, as well as high activity and catalytic activated carbon grades too.

Centre for Renewable Energy

and Energy Efficiency for Central ...

The Renewable Energy Road Map for Central Africa, developed by IRENA and ECCAS, demonstrates that around 80% of the electricity mix could be provided by renewable energy sources (around 25% by non-large hydro) by 2030.

Central African Republic

In the Central African Republic, only 700,000 people of its 4.9 million people have access to electricity and about 60 percent of the country's population live in rural areas. Electricity access to the national power grid is limited and unpredictable. This lack of electricity access has made the country vulnerable during the COVID19 pandemic. A [...]

Tellus Energy Company

We provide state-of-the-art renewable energy solutions tailored to the unique requirements of the minerals and technology sector in Africa. Our expert team designs and implements solar, wind, and hydropower solutions that ensure a reliable and sustainable power supply for mining and technology operations.

Home , AFREC

The African Energy Commission (AFREC) is a specialized agency of the African Union in charge of developing, coordinating and harmonizing the energy policies with an objective of protection, conservation, development, rational exploitation, commercialization and integration of energy resources on the African continent.

US Bank Mercury Closes Startup Accounts in 13 African Countries ...

The thirteen African countries affected by Mercury's account closure restrictions are: Burundi, Cameroon, Central African Republic, Democratic Republic of Congo, Republic of Congo, Liberia, Mali, Mozambique, Nigeria, Somalia, South Sudan, Sudan, and Zimbabwe. Cybersecurity Incident and Data Breach at Evolve Bank & Trust

Central African 2024 Republic

The Central African Republic continues to grapple with severe malnutrition and illnesses such as diarrhoeal disease, measles, malaria, diabetes and high blood pressure which are coupled with a failing health system that has a limited supply of medicine, facilities and human resources.

Expansion of Clean Energy Access in the Central African Republic

This monumental investment signals the inaugural step in a series of clean energy

ventures slated for the Central African Republic. Plans include the development of large-scale solar energy, mini-grid installations, and off-grid solutions for households and public entities.

Mercury to Close Accounts of Users in 13 African Countries by ...

Impact on African Startups. Mercury has been a vital banking service for African startups, especially those incorporated in Delaware but operating primarily in Africa. However, with the new restrictions, these startups can no longer maintain Mercury accounts unless the founders reside in the United States.

Central African Republic , RISE

Is there a financing mechanisms for vulnerable groups (e.g. low-income households, female-headed households, informally settled people, displaced people and/or any other vulnerable group identified in the country context) regardless of the technology supply (including grid, mini grid and off-grid)?
