Microgrid Smart Energy Platform

Microgrid Smart Energy Platform

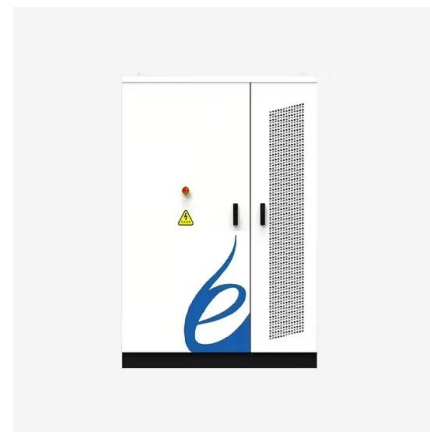

Smart Power solutions for Microgrids , ABB

Plug& play energy and assets dashboards simplify the day-by-day Microgrid management with all the KPIs in your hands. From the smartphone, you get alerts when required, analyze data from recurring reports and activate logics.

Brooklyn Microgrid , Community Powered Energy

What is Brooklyn Microgrid (BMG)? BMG is a community-driven initiative that began in the Park Slope and Gowanus communities, Spring of 2016. A Benefit Corporation established by LO3 Energy, the project reimagines the traditional ...

Microgrid Technology Is Transforming the Energy Grid

A microgrid is a small-scale, local energy system that can disconnect from the traditional utility grid and operate independently. The ability to break off and keep working autonomously means a microgrid can serve as a sophisticated ...

Secured Blockchain-Based Energy Trading Framework for Smart Microgrid

A smart contract trading concept is proposed to operate within a local energy market where participants do not disclose their data, ensuring the privacy of all microgrids ...

Conceptualization of blockchain enabled interconnected smart microgrids

Piclo's energy trading platform uses the meter data for determining the electric load, generators' prices and the consumers' preferences (which are pre-fed into the platform)

...

A Blockchain-Based Energy Trading Platform for Smart Homes in a Microgrid

This paper proposes renewable energy trading platform using ethereum's smart contract to ensure secure energy trading run automatically without the third party intervention ...
