

European Solar and Energy Storage Solutions

Mongolia bruynzeel storage systems a s

Overview

Why should you choose Bruynzeel storage systems?

Bruynzeel Storage Systems has received the largest order in its history to provide mobile storage solutions for the National Archives of Sweden. By opting for a mobile storage solution with a movable aisle, the National Archives building is used as efficiently as possible. This saves money, time and CO2 emissions.

Does Bruynzeel offer museum storage?

Bruynzeel and leader in museum storage in The United States (Delta Designs) have joined forces. We are now offering a full range of Delta Designs' museum-grade systems alongside Bruynzeel's versatile storage solutions [Learn more](#).

Where is Bruynzeel made?

We call this: creating space for a healthy planet. Bruynzeel has over 200 employees in 10 offices in Europe and the United States, as well as an extensive network of distributors in Africa, the Middle East, Latin America, North America, Australia and Asia. All storage systems are produced in the factory in Panningen, the Netherlands.

Does Bruynzeel use oiled steel?

Bruynzeel has started to use unoiled steel from 2000 onwards. We shifted from 100% oiled steel then to 80% unoiled and over 95% non-galvanized steel in 2022. Our goal is to switch to 100% Bruynzeel GreenSteel by 2030.

When will Bruynzeel Greensteel be available?

Expected to be launched in between 2025-2030. Switching to Bruynzeel GreenSteel can reduce CO2 Impact by >91%! The majority of the industry still produces with galvanized and/or oiled steel. This used to be Bruynzeel standard as well before 2000.

Bruynzeel Storage Systems

The rectangular solutions of Bruynzeel had to find a place within the special spherical shape of the museum. And in such a way that the available space was used optimally. Only with a sophisticated layout can you store 151,000 artefacts of all shapes and sizes in the available space. Bruynzeel has been entrusted with that. get inspired
