Montenegro labels 15 energy projects as infrastructure priorities

4 ???· Montenegro also has a list of priority infrastructure projects, including energy. It was introduced in 2018 and updated in the meantime. Compared to the list from 2021, the Gvozd wind farm and the ecological reconstruction of the Pljevlja thermal power plant were erased, while the following projects were added: HPP Kru?evo, Krupac solar power

Southeastern Europe

Planned large-scale energy storage projects, if strategically implemented, can contribute to energy security and make solar energy a backbone of Montenegro's grid. Also see: New report shows ways to facilitate renewable integration into grids. While the shift towards solar is promising, there are challenges Montenegro must address.

Montenegro to announce auctions for renewables by 2025

The European Bank for Reconstruction and Development (EBRD) expects Montenegro to hold the first renewable energy auction by 2025. The prerequisite to conduct auctions is to introduce a renewable energy law.

Grid connection agreement signed for 385 MW solar power plant in Montenegro

The project is envisaged to be implemented in phases. The start of construction is scheduled for 2025. Upon completion and commissioning, which is expected at the end of 2026, Montechevo will be the largest solar power plant in Montenegro. This year Montenegro has issued initial clearance for a solar power plant of up to 506 MW

Montenegro drafts first renewables law, sets rules for auctions

The Ministry of Mining and Energy has organized a series of three round tables in the country's capital Podgorica on the draft law on the use of renewables. Earlier, the European Bank for Reconstruction and Development (EBRD), which advises the government, said Montenegro could launch the first auction for renewables by 2025.

Rooftop solar capacity in Montenegro now over 8.5 MW - manager

Montenegro has installed more than 8.5 MW of rooftop solar capacity to date, Zeljko Pekic, the manager of the Solari 3000+ and 500+ projects run by the power utility EPCG, told Montel on Sunday.

Montenegro to launch 300 MWh battery storage tender

5 ???· In a pioneering move for state-owned

utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024. The utility has also decided to install a 5 MWh battery energy storage system alongside its proposed Kapino Polje solar power plant
