EMPOWERING BUSINESSES WITH INTELLIGENT MICROGRIDS

Unlock the secrets to revolutionizing your energy solutions with intelligent microgrids. In this case study, we take a close look at the challenges of grid capacity constraints and what this means for growing businesses.

mtu Solutions - Sustainable power that matters

The Power Systems Business Unit of Rolls-Royce is focused on creating sustainable, climate neutral solutions for drive, propulsion and power generation. We are making a significant contribution to the energy transition with environmentally-friendly technologies from our mtu product and solution brand.

MTU Maintenance Introduces SAF Testing at Its Facility in

Environmental solutions

MTU Power provides a water injection system that complies with emissions regulations by controlling NOx emissions. The system injects demineralized water directly into the combustor, which reduces the formation of thermal NOx - helping you meet targets without compromising on operational flexibility.

Zhuhai

7 ????· MTU Maintenance Zhuhai introduces sustainable aviation fuel (SAF) testing to its portfolio and carries out first test with launch customer China Southern Airlines Limited (CSN). A V2500 engine

Power Generation SOLUTION GUIDE

PIONEERING THE POWER THAT MATTERS. A solution provider MTU systems power the largest yachts, the strongest tugboats and the biggest land vehicles and provide energy for the world's most important mission-critical applications. Through advanced solutions such as microgrids, we integrate renewable energies and manage the power needs of our

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

Environmental solutions

MTU Power provides a water injection system that complies with emissions regulations by controlling NOx emissions. The system injects demineralized water directly into the combustor, which reduces the formation of thermal NOx - ...

Power Generation Solutions

mtu standby power solutions are engineered to maintain an uninterrupted flow of power in the event of a utility. Our highly efficient continuous power solutions provide primary power for your operation. When used as part of a combined heat and power system (CHP), you receive the highest efficiency from your system. Afghanistan Aland

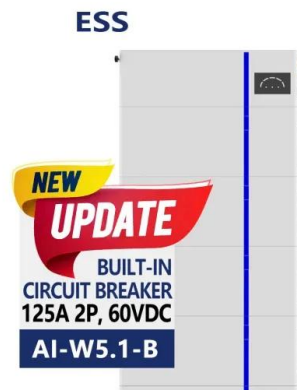

MTU - Power. Passion. Partnership.

We are able to provide you with diesel and gas engine solutions for Marine, Power Generation and Oil & Gas applications. We offer full engineering design services as well as comprehensive servicing and spare parts care packages.

mtu Solutions - Sustainable power that matters

The Power Systems Business Unit of Rolls-Royce is focused on creating sustainable, climate neutral solutions for drive, propulsion and power generation. We are making a significant contribution to the energy transition ...

mtu Solutions - Sustainable power that matters

The Power Systems Business Unit of Rolls-Royce is focused on creating sustainable, climate neutral solutions for drive, propulsion and power generation. We are making a significant contribution to the energy transition with environmentally-friendly technologies from our mtu product and solution brand. As leaders in standby power for safety-critical plants and ...

Engineering services

MTU provides comprehensive, state-of-the-art solutions in engineering, design and analytics, materials, research and testing, validation and certification, production and maintenance as part

of its engineering and production services.

Über Rolls-Royce Power Systems

Der Geschäftsbereich Power Systems von Rolls-Royce steht mit seiner Marke mtu als Produkt- und Lösungsanbieter für erstklassige Antriebs- und Energielösungen sowie umfassende Unterstützung über den gesamten Lebenszyklus hinweg. Wir nutzen die Digitalisierung und Elektrifizierung, um Lösungen für Antriebe und Energieerzeugung zu entwickeln, die noch ...

Power Generation Solutions

We supply world-class power solutions with complete life-cycle support for infrastructure applications worldwide. Our mission is to develop power generation solutions that are ever cleaner and ever smarter and thereby respond to the ...

Energy Storage System

The mtu EnergyPack efficiently stores electricity from distributed sources and delivers on demand. It is available in different sizes: QS and QL, ranging from 200 kVA to 2,000 kVA, and from 312 kWh to 2,084 kWh, and QG for grid scale storage needs, ranging from 4,400 kVA and 4,470 kWh to virtually any size.

Power Generation Solutions

We supply world-class power solutions with complete life-cycle support for infrastructure applications worldwide. mtu standby power solutions are engineered to maintain an uninterrupted flow of power in the event of a utility outage or grid failure. Afghanistan Aland Islands Albania Algeria American Minor Outlying Islands

Power Generation Applications

From mission-critical to everyday backup and standby power to continuous power and heat and cooling supply, we provide complete, dependable diesel and gas power generation solutions wherever--and whenever--reliability is needed.

Power Generation Products

mtu gas generator sets are fueled by natural gas, biogas or other gases and are perfect for a wide range of applications. Whether it's continuous, standby or prime power, power generation or combined heat and power production (CHP), mtu is the solution
