New rural scam solar power generation

Overview

Does a rural solar project need local or state approval?

President Biden takes notes during a meeting to discuss clean energy efforts with CEOs of U.S. electric utility companies at the White House in February 2022. Yet every single rural utility-scale wind and solar project needs local or state approval to get built, says Sarah Mills, who researches rural renewable energy at the University of Michigan.

Is misinformation turning rural landowners unfairly against renewables?

But misinformation spread by groups like Citizens for Responsible Solar is turning rural landowners unfairly against renewables, says Skyler Zunk, an Interior Department official under President Donald Trump and chief executive of Energy Right, a conservative-leaning nonprofit that supports solar projects that preserve ecosystems.

Are free solar panels a scam?

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for “free” or “no cost” solar panels are scams. Comply with the law: old and new. Reputable companies know the importance of being honest about what they’re offering – and how much it costs.

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Are customer complaints a problem in the solar industry?

Customer complaints against the country’s residential rooftop solar industry have increased dramatically in recent years. One-star ratings on Solar Reviews

increased more than 1,000% since 2018. Across the country, prosecutors are investigating high-pressure sales tactics and misleading financing arrangements.

What if my company offers solar energy?

If your company offers solar energy, remember that claims must not only be truthful, but also comply with established consumer protection laws, including the FTC Act and the FTC's new Impersonation Rule. Be truthful. Every clean energy company has a responsibility to be honest and upfront with consumers. Be transparent about what you're offering.
