The Extra Point

664 Tales of Power: Nikola Tesla Part 2 When we left our discussion of Nikola Tesla, he had lived out his final years in a New York City hotel room, with stacks of inventions, projects, and notes surrounding him. He had made others fabulously wealthy with his work, but he ended

up penniless. Controversy and confusion followed Tesla

About

Data Mozart is a personal blog focused on topics related to...data (of course). So, everything related to databases (both relational and non-relational), business intelligence tools and techniques, data integration, data analysis, visualization, etc. My name is Nikola Ilic and I make music from the data. I'm really passionate about everything related to data. I have [...]

Energy

Hydrogen is the ideal energy source for long-distance, heavy commercial transportation. It is lightweight, with nearly three times the energy as diesel 1 on a mass basis, yet emits zero carbon. Additionally, we work with several partners to provide the infrastructure that ensures hydrogen fuel is both conveniently accessible and competitively priced.

Guam Power Authority receives \$3M to move forward on 100

In partnership with the National Renewable Energy Laboratory, the Guam Power Authority was awarded \$3 million by the Department of Interior Office of Insular Affairs to move forward
