Novatek power China

Overview

Is Russian gas producer Novatek opening a new office in China?

Amid U.S. sanctions stalling progress on natural gas exports from a new Arctic LNG plant, Russian gas producer Novatek is opening an office in China and creating a team based there to sell gas, Reuters reported on Tuesday, citing sources with knowledge of the plans.

Could a China operation help Novatek find customers?

A China operation may help Novatek find customers for its newest liquefied natural gas (LNG) project, Arctic LNG 2, after U.S. sanctions were imposed. Novatek, Russia's largest LNG producer, has been building a Beijing-based business development and marketing team in recent months, six sources with knowledge of the matter said.

Will Novatek build a gas turbine power plant?

MOSCOW. May 16 (Interfax) - Novatek plans to build an onshore gas turbine power plant with capacity of 1,500 MW to generate electricity and support the operation of a plant to produce, store and offload liquefied natural gas (LNG) and stable gas condensate, the Russian gas producer reported. The power plant will be built in three stages.

Does Novatek have a business development team based in China?

Novatek, which is the biggest LNG producer and exporter in Russia, has been working to set up a marketing and business development team based in China for months, according to multiple undisclosed sources who spoke to Reuters.

Will China supply gas turbines for Novatek's Arctic LNG 2 project?

Chinese suppliers will deliver essential gas turbines allowing Novatek to open the LNG plant in 2023. China continues to fill the technology gap left by the exit of western companies from Russia's Arctic energy projects. For the past year Novatek has been looking to procure crucial gas turbines for its Arctic

LNG 2 project.

Does Shenergy buy Novatek liquefied gas?

Shenergy Group recently signed a sales and purchase agreement with Russia's second-largest gas producer Novatek to receive more than 3 million metric tons of liquefied natural gas over a 15-year period. [Photo/official website of Shenergy]
