Nsspv energy europe South Sudan

12.8V 100Ah

Overview

Is Sudan's Energy Sector Sustainable?

Further, Sudan's energy sector is currently subsidised by the government. Government subsidies to the sector totalled \$667 million in 2019. This represents 13.5% of total government expenditures . Financial sustainability could be achieved by introducing gradual tariff adjustments.

What are the challenges facing Sudan's energy sector?

Sudan's energy sector is facing numerous challenges: persistent blackouts, an inadequate energy infrastructure, and a poor and scattered government response .

Can geothermal energy be exploited in Sudan?

Some of the few available studies have revealed such potential. Geothermal energy has been discovered in the Suwakin area, the Jebel Marra volcanic mountains, and other remote areas . Geothermal data collected from oil wells reveals huge potential for exploiting geothermal energy in many areas of Sudan.
