Omnik Photovoltaic Inverter Official Website

Overview

Who is Omnik new energy?

Omnik New Energy Co., Ltd., an innovative high technology Sino-German joint venture, specializes in R&D, manufacturing and marketing of photovoltaic (PV) inverters.

Does omnikportal work with all inverters?

Not all Omnik inverters and not all firmwares are supported. If your inverter does not have the option to use a "Remote server" or only "Server B", Omnikportal will unfortunately not work for you. Unfortunately, you will not find out until you have largely completed the installation process. Step 1/4. Estimated time required: > 3 minutes.

Who is Omnik?

Omnik is a company founded by German shareholders and supported by the Chinese local government. It is led by a passionate team of professionals with overseas qualifications and an efficient management team, striving to make Omnik a world-leading inverter manufacturer and the golden supplier.

What is inverter_serial & energytoday in Omnik?

inverter_serial (Required): The device serial number of the Omnik solar wifi/lan module. name (Optional): Let you overwrite the name of the device in the frontend. Default value: Omnik actualpower: Sensor with the actual power value. energytoday: Sensor with the total energy value for the current day.

How do I get data from a Omnik inverter?

For older Omnik inverters it is not possible to get the data straight from the inverter. Newer inverters listen at port 8899 and are able to respond directly. The datalogger in the inverter sends an update about every 5 minutes to a fixed IP of a logging server in the Solarman datacenter.

Why should you choose Omnik inverters?

Omnik inverters are highly appraised for their distinguished specifications, stable performance, and full-spectrum after-sale services.
