Shell to replace Petronas as YPF partner in Río Negro LNG plant

The initiative, known as "Argentina LNG," will be located in Río Negro province. The PDA (Project Development Agreement) was signed in The Hague, Netherlands. This information means that Shell will join the project in place of Petronas. The news that the participation of the Malaysian energy giant was in doubt was first reported in September.

Renewable energy in

Argentina: a utopia for the global south?

5 ???· Argentina's energy matrix remains dominated by fossil fuels, which account for approximately 88% of its energy consumption (Lallana et al., 2021). Despite advancements in recent years, such as the 2016 RenovAr programme, the country still faces difficulties in developing a renewable energy sector capable of competing in a matrix structurally
