4Patriots Solar Review

My mother bought a 4 Patriots "Solar Generator" because a friend has one. It's a battery and inverter in a case with a 100watt solar panel. It was sold as having a second free 100W solar panel included. The additional panel was supposed to ship at a later date. Later is right, because it still hasn't arrived, nearly 2 months later than promised.

4Patriots Solar Review

The price is way out of line. It costs about \$3,000. When you dig down in their Web site, way down at the bottom of a mile-long page,

you'll find that the specs compare to other units that sell for about \$1500. Battery capacity is low and the solar panel is cheap.

Critical review of My patriot Solar Generator system

This is not a solar charging system. But it has the heart which is a battery. A charger made for the battery and an inverter to turn the 12 volts into AC and USB DC voltage. The idea is to get the same function or better for less money. If you wanted this to be solar you would need the solar panels and charging controller for the battery.
