Hans Sy Jr. highlights innovative solutions for water, energy

SM Engineering Design and Development Corporation President Hans Sy Jr. shared innovative solutions for water and energy sustainability during the 3rd Manila Bulletin Sustainability Forum on Wednesday, Nov. 20. SM Engineering Design and Development Corporation President, Hans Sy Jr. (Photo from

Department of Energy Philippines

Under the leadership of President Ferdinand Marcos Jr., the government is boldly charting a course to a more dynamic and sustainable energy future that benefits communities, drives economic growth, and improves the well-being of Filipino people.

AECO Energy Philippines

Discover how AECO Energy Philippines' energy solutions can help you save on energy costs and become a future-proof and sustainable enterprise. AECO Energy HQ; AECO Energy SG; AECO Energy AU; AECO Energy PH; Power Choice AU; Did you know that the Philippines' energy spot prices varied by 112% in 2021?

JR ENERGY SOLUTION

JR Energy Solution provides the total smart factory system specialized in the battery system including electrode manufacturing, cell assembly, modules, and packs. We analyze the initial product, design a manufacturing plant including the logistics flow mechanism, analyze the production requirements (specification), identify the overall process

Philippines Renewable Energy

The Philippines, an archipelago of over 7,000 islands located in Southeast Asia, is blessed with abundant renewable energy resources. With its strategic location in the Pacific Ring of Fire and exposure to the trade winds, the country boasts a significant potential for harnessing renewable energy (RE).

Philippine Energy Plan 2023-2050 , Department of Energy Philippines

Under the leadership of President Ferdinand Marcos Jr., the government is boldly charting a course to a more dynamic and sustainable energy future that benefits communities, drives economic growth, and improves the well-being of Filipino people.

Philippines Renewable Energy

The production of biofuels, like biodiesel and ethanol from crops (e.g., sugarcane and coconut), offers another avenue for renewable energy development. Emerging Trends: In recent years, the Philippines has demonstrated interest in emerging renewable energy technologies, including marine renewable energy from tidal and ocean energy.

LIQUID COOLING ENERGY STORAGE SYSTEM

EMS real-time monitoring
No container design
flexible site layout

Cycle Life
≥ 8000

Nominal Energy
200kwh

IP Grade
IP55
