Photovoltaic New Third Board Enterprises

Overview

How many PV companies are in China?

China has a total of 133 companies on this year's list. Among them, Tongwei Group, with its robust manufacturing capabilities, has once again secured its place on the Fortune Global 500 list, filling the gap for Sichuan province's manufacturing sector in this ranking and becoming the first PV enterprise globally to achieve this feat.

How will China's PV industry impact other enterprises?

With the development of China's PV industry, enterprises who have a direct impact on other enterprises are more likely to have their inherent influence and will certainly become the enterprises with big inherent influence ability in the industry.

Which country will lead the global PV industry in 2016?

A recent report of Mercom expects the global PV of new power capacity to reach 64.7 GW in 2016, of which China is expected to lead with about 19.5 GW of new photovoltaic power capacity. For a long time, periodic fluctuations of the PV industry have highly influenced the PV industrial chain. Fig. 11.

Who is Tongwei solar?

Since entering the PV market in 2006, Tongwei has grown into a fully integrated PV enterprise. It covers the entire PV industry chain, including high-purity polysilicon, high-efficiency solar cells and PV modules, and PV power plant operations.

Why should you choose Runda photovoltaic?

Runda Photovoltaic always adheres to the concept of green environmental protection and low carbon, strictly controls every step from product research and development, raw material procurement, to manufacturing and application, and is always committed to creating high-quality and reliable

products. Renewable clean energy.

Photovoltaic New Third Board Enterprises
