Photovoltaic bracket production equipment address

Overview

What is the production capacity of photovoltaic brackets?

The company's standard industrial plant area is 30,000 square meters, and the annual production capacity of photovoltaic brackets is 6G watts. The cumulative shipment is more than 15G watts. The products are distributed in more than 30 countries and regions around the world.

Can versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power station in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

What is a photovoltaic service provider?

It is a one-stop service provider for the photovoltaic industry integrating photovoltaic support R&D, design, production, sales and project management. It is committed to becoming the world's leading safety experts of photovoltaic system.
