Overview

Who are the best solar installers in Ireland?

Empowering the Emerald Isle, one roof, one system at a time. PV Generation is the leading supplier of Solar PV Panels in Ireland. Established 2015, reputable solar installer. SEAI Approved.

Are solar panels a good investment in Ireland?

Modern solar PV systems from Wizer Energy are an excellent investment. Homeowners in Ireland are turning to solar energy to reduce energy bills, to help the environment, and to increase property value. That's why we provide a wide range of professional solar panel services in Ireland.

Should you invest in solar panels in Limerick?

With zero VAT, substantial grants, and the option to sell excess energy back to the grid, now is an ideal time to invest in high-quality solar panels in Limerick. Research shows that solar panels perform optimally in milder climates, making Ireland perfect for solar energy production.

Who are SEAI certified solar installers?

With years of experience & over 2,000+ solar installations throughout Ireland, our team of SEAI certified professionals is committed to delivering efficient and reliable solar PV solutions based on your unique energy needs. We pride ourselves on our exceptional customer service, ensuring a smooth installation process from start to finish.

Is Cork a good place for solar energy?

Therefore, Cork is well-suited for solar energy generation, especially with south-facing or east-west orientations. Cooler climates, like Ireland's, enhance solar panel performance, and Cork's location in the sunnier southeast boosts energy production. Our team of experts is ready to help you switch to clean, renewable energy.

Why should you invest in solar panels in Clare?

Research shows that solar panels perform optimally in milder climates, making Ireland perfect for solar energy production. Despite some cloudy days in the West, there's ample sunlight to generate power in County Clare! Now is the perfect time to invest in high-quality solar panels in Clare.

Photovoltaic installations Ireland

Solar PV for homes

What does an Electric Ireland Solar PV installation cost An average size Solar PV install would include 10 panels and a hot water diverter with average price of EUR7,975 (before grant) but is dependant on site survey for accurate quotation. The price after grant of EUR2,400 for this 10 panel (4.1kWp) system would be EUR5,575.
