To do so, visit their official website and locate the 'Contact Us' page. There should be an email address provided for general inquiries or customer support queries.

Can You pressure wash solar panels?

No, you should not pressure wash your solar panels. Pressure washers are great for cleaning the exterior of your home, such as the gutters, roof and driveway, but they run the risk of damaging your panels. It's best to find a safer alternative such as a hose or a low-pressure sprayer for cleaning your panels.
