Photovoltaic panel explosion

Overview

Did Hezbollah's solar panels explode?

Lebanon's National News Agency (NNA) has reported that solar panels and walkie-talkies used by the Hezbollah militant group exploded on Wednesday, following a wave of pager explosions the day before. The agency reported explosions of rooftop solar systems in several parts of Beirut, but did not provide additional details.

Who is responsible for Israel's exploding solar panels?

Most of the impacted devices appeared to be communication systems, but there were also some reports of other devices exploding, like solar panels. At least one such explosion injured a girl. Hezbollah and the Lebanese government have blamed Israel for the explosions. Israel has not commented.

Are solar panels exploding in Beirut?

According to the state-run National News Agency, solar energy systems exploded in homes in several areas of Beirut and the south on Wednesday, but the reports remain unconfirmed.
