The Energy Department and the Solar Energy Technologies Office have warned consumers about this type of online scam involving solar panels. We rate this claim False. Support independent fact-checking.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal.

Solar panel scammers can use high-pressure sales tactics or make false promises. Avoid scams by checking installation company credentials and ratings, and reading the contract carefully. Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more.

What if I Can't get solar panels installed on my home?

If you are unable to get panels installed on your home, you can still benefit from solar energy through community solar. This entails a single solar array installed in one location and shared among multiple households. Costs are divided among the people sharing the solar system.

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old “government is paying people to go solar” scam. Related reading: [Solar Leases vs. Solar Loans vs. Solar PPAs](#).

Do Americans get free solar panels?

American homeowners might be eligible for federal tax credits for solar installations or state subsidies for solar energy, but not free panels. The U.S. government does not provide free solar panels, said a U.S. Department of Energy spokesperson. The department urges people to report scams to the .

Are solar companies a bait and switch scam?

This is essentially a classic bait and switch scam. A solar company uses the premise of getting 30% off solar to get homeowners to sign a lease or PPA, and then collects it for themselves. In extreme cases, solar scammers may even pose as utility or government officials trying to promote a new or unique solar program in your area.
