

European Solar and Energy Storage Solutions

Photovoltaic panel manufacturer Longji

Overview

Who is Longi Green Energy Technology?

LONGi Green Energy Technology Co., Ltd. was established in 2000 and is committed to becoming the most valuable solar energy technology company in the world. Click and learn more about LONGi.

Is Longi a good solar company?

LONGi, a world's leading solar energy technology company, announced that the company received "Top Brand PV Award Canada 2024" by EUPD Research. LONGi has once again retained its AAA ranking in PV-Tech's Q2 2024 PV ModuleTech bankability ratings, the 18th consecutive quarter for the company to achieve this status.

Where is Longi based?

Since 2015, LONGi is starting to deploy its operations in Yunnan of China, and Kuching in Malaysia to utilize rich local hydropower resources to produce clean energies. LONGi plans to integrate solar facilities with pumped storage in offshore areas featured with greater altitude differences and abundant sunlight.

What business model does Longi support?

LONGi supports the "Solar for Solar" business model. While creating low-cost clean energy products for the world, the company uses clean energy and green manufacturing practices in its operations whenever possible.

Where are Longi products made?

Once again. LONGi has laid out several manufacturing bases in China, Vietnam, Malaysia and other countries and regions, and branches in the United States, Japan, India, Australia, Thailand, the United Arab Emirates and other countries, with businesses in more than 150 countries and regions.

Why is Longi a leader in the semiconductor industry?

* LONGi took the industry lead in standardizing wafer size and achieving 100% diamond wire cutting of mono silicon wafer. * In 2021, the company's global sales performance, market share and brand influence ranked it 1st in the world, with its total shipment volume of domestic and exported modules exceeding 2nd place by more than 10GW.
