## Overview

---

Is PowerFilm a US based solar company?

Celebrating over thirty years in business, PowerFilm is proud to be one of the few US-based solar manufacturing companies operating today. The Soltronix brand brings PowerFilm expertise, innovation, and commitment to US-based semi-flexible crystalline silicon solutions.

What makes silfab solar panels unique?

Silfab solar panels are designed and engineered specifically for the North American environment. We incorporate advanced robotics, automation and the latest innovations in solar technology into our manufacturing process to deliver efficient, reliable, high-quality panels with one of the lowest defect rates in the industry.

Are silfab solar panels made in USA?

The Silfab Utility series is backed by the most comprehensive 25-year product and 30-year linear performance warranty. **EXCLUSIVELY MADE IN THE USA.** Silfab Elite Series panels are our most prestigious and deliver the highest efficiency of any solar panel manufactured exclusively in the US.

What is a custom solar panel design tool?

Because it can be difficult to explain all these options over the phone, in an email, or on a webpage, we developed a Custom Solar Panel Design Tool. Customers can use this tool to learn the basic anatomy of a solar panel, some of the customization options available, and create a custom solution that meets their needs.

How much does it cost to design a custom solar panel?

There are no design fees to create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending

on the size of the panel.

Which solar panels are made in the USA?

**EXCLUSIVELY MADE IN THE USA.** Silfab Elite Series panels are our most prestigious and deliver the highest efficiency of any solar panel manufactured exclusively in the US. The panel's innovative conductive backsheet and integrated cell design replaces conventional design, allowing for more light to be collected and converted into energy.
