Best Tested Portable Power Stations in 2024 Jackery Explorer 2000 Plus Best overall portable power station . EcoFlow Delta 3 Plus Fast-charging portable power station . Jackery Explorer 1000 Plus Best midsize portable power station . Anker Solix F3800 Best extra-large portable power station . Bluetti AC70 Best budget portable power station . Bluetti AC200 Max . What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. I've been testing portable power stations for years as part of my ongoing test of the best solar generators.

How much power can a portable power station hold?

While a particular power station might claim to hold 1,000 watt hours, the actual amount of usable power you can get out of it is a different story. The best portable power stations also have an onboard computer that shows you how much energy is left in your unit, as well as how much power it's currently using.

Why should you buy a portable power station?

Have power, will travel. It's easy to think that a power station is just a really big portable battery pack, but they offer so much more. Other than simply recharging your devices, a portable power station can power lamps to light a room, or in some cases keep a fridge running during a power outage.

How long does a portable power station last?

The reality is that you should expect somewhere between 8.5 and 10 hours, in this example. How is a portable power station different from a generator?

A portable power station is essentially a big rechargeable battery that you carry around. Deplete it, and it's useless until you can recharge.

What accessories do you need for a portable power station?

One of the most common accessories is going to be a cord to connect to similar power stations in series, often times doubling your power output. Some portable power stations have a light bar built into the housing, which is useful for seeing at night. Anker's Solix C800 Plus also includes extendable camping lights.

Should you buy a portable power station for home backup?

If you're thinking of purchasing a portable power station for home backup, you can also run into issues with the power station draining, and eventually emptying, over time. Draining a battery and then failing to recharge it will eventually damage the battery.
