Potassium-ion battery cathode--Prussian blue analogs

K^+ is another member of the alkali metal ion family and has a larger ionic size (1.38 Å) than Li^+ (0.76 Å) and Na^+ (1.02 Å). PBAs were also expected to be used as potassium-ion battery (PIB) cathodes for K^+ storage. In 2004, Ali Eftekhari first explored the electrochemical K storage possibility of a PBA film, and it showed good electrochemical activity and excellent cyclability

Croatia's Sisak to get EUR 220 million electric car battery factory

The investment in Sunceco Battery, the future production facility plant in Croatia's Sisak city, is valued at EUR 220 million. Matt Darko Serti?, investor and owner of companies Applied Ceramics and Sunceco, said the factory should be built in three years and that it would occupy 35,000 square meters.

IPP Woodburn Capital targets BESS market in Croatia

Central and Eastern Europe (CEE)-based developer and independent power producer (IPP) Woodburn Capital is deploying a co-located battery storage project in Croatia, with final regulations around connecting batteries to the grid expected imminently.

World's first 18650 Potassium-ion battery debuts

An 18650 potassium-ion battery represents a category of rechargeable batteries that employs potassium ions as the charge carrier, in contrast to the more prevalent lithium ions. This type of battery possesses the same form factor as the commonly utilized 18650 lithium-ion battery, with a diameter of 18 mm and a length of 65 mm.

CIK Battery

Car battery market leader Powering Croatian vehicles for the past 25 years Presence in all market segments With excellent work and results, C.I.A.K. has been present on the markets of Croatia, Bosnia and Herzegovina, Serbia, Montenegro, and Slovenia for years. C.I.A.K. is a car battery market leader and it is also the number one company in

Croatia's Sisak to get EUR 220 million electric car ...

The investment in Sunceco Battery, the future production facility plant in Croatia's Sisak city, is valued at EUR 220 million. Matt Darko Serti?, investor and owner of companies Applied Ceramics and Sunceco, said the ...

Tomorrow's super battery for electric cars is made of rock

A lithium-ion battery works by moving lithium ions through an electrolyte liquid from the cathode (made of a mix of metals including lithium and cobalt) to the anode (made from graphite). Lithium-ion and potassium-ion

batteries work in the same way. Here, lithium has simply been replaced with potassium.

Group1 Unveils 18650 Form Factor Potassium-Ion Battery

US-based battery technology developer Group1 has announced the launch of what it claims to be the world's first 18650 form factor potassium-ion battery. The company's technology is designed to provide a sustainable and cost-effective alternative to lithium batteries that is free of critical minerals such as nickel, cobalt, copper, and lithium.

Start-up Group1 seeks to commercialize potassium-ion batteries

The battery start-up Group1 has emerged from stealth with plans to commercialize a cathode material for potassium-ion batteries that could be an alternative to increasingly expensive lithium-based

IPP Woodburn Capital targets BESS market in Croatia

Central and Eastern Europe (CEE)-based developer and independent power producer (IPP) Woodburn Capital is deploying a co-located battery storage project in Croatia, with final

regulations around connecting ...

Group1 Unveils First Potassium-ion Battery in 18650 Format

AUSTIN, Texas, Aug. 1, 2024 /PRNewswire/ -- Group1, a leader in advanced battery technology, proudly announces the release of the world's first Potassium-ion battery (KIB) in the cylindrical 18650 format

Aqueous Potassium-Ion Batteries: Insights into Next-Gen Solutions

One aqueous battery chemistry is potassium-ion, which is much safer than Li-ion. Moreover, potassium-ion batteries can utilize a water-in-salt electrolyte (WISE), which makes them more stable

Subsidy of 20 million euros for Croatian grid-scale battery project

The European Commission has allocated EUR19.8 million in the form of state aid for a number of projects for grid-scale energy storage. The subsidy was awarded to the company IE-Energy from Rijeka. This amount will cover about

30 percent of the costs for the series of battery systems planned for construction around the city of ?ibenik.

Application scenarios of energy storage battery products

New potassium-ion battery technology could soon replace

Texas-based startup Group1 has unveiled the world's first Potassium-ion battery (KIB) in the industry-standard 18650 cylindrical form factor. This groundbreaking innovation marks a significant

World's 1st 18650 Potassium-ion battery debuts, can replace

...

World's first 18650 Potassium-ion battery debuts, can replace lithium cells. The 18650 format, being the most widely used and designed cell format, ensures compatibility with existing devices

Potassium-Ion Batteries

Potassium-ion battery (PIBs) A Potassium-ion battery is a type of battery that is comparable to a lithium-ion battery, except that it uses potassium ions instead of lithium ions to move charge, in 2004 the PIBs is invented by Iranian/American chemist Ali Eftekhari. High energy and high power densities at cheap prices are advantages of PIBs [34].

Customizable

Croatian startup to build largest battery system in Southeastern ...

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would be the biggest in Southeastern Europe.

Croatian startup to build largest battery system in ...

Croatia got the green light from Brussels to give a EUR 19.8 million grant to a domestic startup for a massive energy storage project. IE-Energy is planning to build a battery system of 50 MW, which means it would ...

Top 5 startups in Energy Tech in Croatia in Nov, 2024

The company's electric supercar - Concept One - has a power output of 1088 hp, can reach 100 kmph in 2.8 sec, and runs on a 650 V battery pack. The company also designs and manufactures drivetrains, motors and transmission systems, batteries, and battery management systems for other car manufacturers.

Lithium Batteries Manufacturer

Leading lithium battery manufacturer in Croatia. KONTAKT. contact@phasebit.hr +385958894400. Unesite Vašu email adresu za kontakt. ?elim primati novosti Phasebit is a premier manufacturer of lithium batteries in Croatia, specializing in in-house production of BMS systems and innovative energy solutions. Our expertise extends to inverters
