Powersafe sbs 110 Sudan

Overview

What is a powersafe SBS 110 battery?

The EnerSys PowerSafe SBS 110 battery range utilizes unique and proven technology to provide a superior range of valve-regulated batteries with an extended service life in compact and energy dense configurations.

What is the maximum operating temperature of a powersafe SBS battery?

The maximum operating temperature of the PowerSafe SBS battery series can be extended to 80°C via an optional metal jacket. Features Specialist Power Systems are an approved sales partner to EnerSys in the UK with expert technical knowledge.

What battery sizes are available for powersafe® SBS batteries?

PowerSafe® SBS batteries are available in both 12-volt front-terminal and 2-volt OPzV and OPzS DIN container sizes, and an extensive range of Ampere-hour (Ah) capacities, providing flexibility to fit any setup.

Why should you choose powersafe® SBS batteries?

Even in the most challenging operating environments, they continue to deliver reliable power and meet all SR-4228 and NEBS™ level 3 testing requirements. Widely used in cable TV, emergency lighting, power generation, and offshore applications, choose PowerSafe® SBS batteries for proven performance and peace of mind.

Where are powersafe® batteries marketed?

PowerSafe® products are marketed under the SuperSafe® brand in the following specific countries - India, Indonesia, Malaysia, Singapore, Thailand, Australia and New Zealand. Featuring advanced Thin Place Pure Lead (TPPL) technology, PowerSafe SBS batteries deliver long life, high energy density and superior shelf life for telecommunications.
