Bermuda: Energy Country Profile

Bermuda: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.

The Cost of Electricity

Bermuda Electric Light Company (BELCO) has one primary objective--to supply our customers with safe, reliable, affordable electricity. Our ultimate goal is to become a renewable energy company and we are working steadily towards that goal.

Energy in Bermuda

Historically like other modern developed countries around the world, Bermuda has depended on fossil fuel for energy production for electricity, heating, cooling and transportation. Due to this dependence on external resources for energy, security of supply and production of energy have always been subjects of interest by both government and non-government entities.
