### US says \$365 million is available to install solar and battery storage

SAN JUAN, Puerto Rico (AP) -- The U.S. Department of Energy said Thursday that \$365 million is available to install solar and battery storage systems in homes and healthcare centers across Puerto Rico.

### DOE conditional loan of \$584.5 million for solar-plus ...

The U.S. Department of Energy (DOE) Loan Programs Office announced a conditional commitment for a loan guarantee of up to \$584.5 million to subsidiaries of Convergent Energy and Power Inc., an energy storage ...

### East Penn Manufacturing - Restoring power in Puerto Rico

Restoring Power Using Lead Batteries. Download the full case study. View CBI's interactive map of energy storage projects. Ciales, Puerto Rico. As part of disaster relief efforts following 2017's Hurricane Maria, residents from the Toro Negro Community in Puerto Rico partnered with local businesses and NGOs to restore power and ensure future resiliency.

## U.S. Department of Energy

## Announces up to \$365 Million to Equip

WASHINGTON D.C. - The U.S. Department of Energy (DOE) today announced four Puerto-Rico-based teams selected to install solar and battery storage systems under its new Programa de Comunidades Resilientes, funded by DOE's Puerto Rico Energy Resilience Fund (PR-ERF). This investment of up to \$365 million aims to improve community ...

## Biden-Harris Administration Announces Loan Guarantee of More ...

As part of the Biden-Harris administration's Investing in America agenda, the U.S. Department of Energy (DOE), through its Loan Programs Office (LPO), announced a \$861.3 million loan guarantee to finance the construction of two solar photovoltaic (PV) farms equipped with battery storage and two standalone battery energy storage systems (BESS) in Puerto Rico.

## Accelerated Renewable Energy Deployment and Energy Storage ...

SAN JUAN, Puerto Rico--With lots of solar and wind power, energy storage, and advanced extreme weather impact modeling, Puerto Rico could achieve a 100% renewable power grid by 2050. These and other recommendations are the results of the Puerto Rico Grid Resilience and Transitions to 100% Renewable Energy Study (PR100), announced today.

## Project Marahu: Puerto Rico

## secures \$860M+ loan for utility-scale ...

Puerto Rico will add up to 200 megawatts (MW) of solar generation and another 285 MW/1,140 MWh of battery energy storage, thanks to an \$861.3 million loan guarantee from the U.S. Department of Energy's Loan Program Office.

## GOVERNMENT OF PUERTO RICO PUBLIC SERVICE ...

TO THE HONORABLE PUERTO RICO ENERGY BUREAU: COMES NOW the Puerto Rico Electric Power Authority through the undersigned legal representation and respectfully submits and requests as follows: 1. On August 24, 2020, the Energy Bureau of the Public Service Regulatory Board (the "Energy Bureau") entered the Final Resolution and ...

## Puerto Rico: Regulator approves 360MW plan to accelerate battery

Regulator PREB approved the concept, determining that ASAP was in line with integrated resource planning (IRP) that aims to increase energy storage capacity in Puerto Rico dramatically, ordering the utility to create Standard Offer contracts ahead of launching.

## Puerto Rico: Regulator approves 360MW plan to accelerate battery

The distribution provider, appointed after the privatisation of Puerto Rico Electric Power

Authority (PREPA) assets, "informally proposed" its 'Accelerated storage addition program' (ASAP) in November last year. Luma claimed ASAP could significantly reduce the time required to integrate BESS onto the grid, compared to Puerto Rico's present system of renewable energy ...

## Enphase Energy Expands Battery Storage in Puerto Rico

Residential battery capacity in Puerto Rico and other U.S. territories is growing steadily year-over-year with forecasts estimating deployments will nearly double by the end of 2026, according to the most recent U.S. Energy Storage Monitor report from the Energy Storage Association and Wood Mackenzie.

## Appendix A: ENERGY STORAGE TECHNOLOGIES

Hz, and (c) capacity deferral of new generating facilities. In November 1994, the Puerto Rico Electric Power Authority installed a 20 MW/40-minute battery energy storage system for frequency and voltage regulation and spinning reserve [5].

## Puerto Rico Solar & Battery Storage Distributor

This program allocates funds to local governments in Puerto Rico to support clean energy projects, including solar and battery storage systems. For example, the city of Bayamón received funding to install a roof-mounted solar array and battery storage system

on ...

## Project Marahu: Puerto Rico secures \$860M+ loan for ...

Puerto Rico will add up to 200 megawatts (MW) of solar generation and another 285 MW/1,140 MWh of battery energy storage, thanks to an \$861.3 million loan guarantee from the U.S. Department of Energy's Loan ...

## DOE conditional loan of \$584.5 million for solar-plus-storage in Puerto ...

The U.S. Department of Energy (DOE) Loan Programs Office announced a conditional commitment for a loan guarantee of up to \$584.5 million to subsidiaries of Convergent Energy and Power Inc., an energy storage provider. The loan guarantee is intended to finance a solar system with an integrated battery energy storage system (BESS) and three stand-alone BESS ...

## PREPA Coto Laurel

The PREPA Coto Laurel - BESS is a 5,500kW energy storage project located in Coto Laurel, Ponce, Puerto Rico. The electro-chemical battery energy storage project uses lithium-ion as its

storage technology. The project was announced in 2016.

## US govt to lend USD 860m for solar, storage in Puerto Rico

The US Department of Energy (DOE) said on Tuesday it has closed a USD-861.3-million (EUR 793.5m) loan guarantee to finance the construction of two solar-plus-storage parks and two standalone battery energy storage systems (BESS) in Puerto Rico.

## PREPA IRP Plan

The Final Integrated Resource Plan ("IRP") approved by the Puerto Rico Energy Bureau ("PREB") on August 24, 2020 required the Puerto Rico Electric Power Authority ("PREPA") to develop competitive solicitation processes for the procurement of new renewable energy resources and battery energy storage consistent with the terms of the IRP.
