EWA-Approved Solar Contractor in Bahrain , Shaheen Group

Another reason why solar energy is popular in Bahrain is because the country is a solar energy hub. That is, Bahrain has strong solar resources. Research reveals the average solar radiation in Bahrain is approximately 5.18 kWh/m² per day with an average duration of 9.2 hours of sunshine. These readings portray Bahrain as a potential solar

New Production line in Bahrain

80000 solar panels per year. The CEO of Solartecc Green Energy Mr Rabih Abdullah, revealed that 100% of the production plant had been completed, as the plant began production and full rump-up, marking its formal opening in March 2021. The new Bahraini factory is located in the Bahrain International Investment Zone on an area of 4 thousand square meters where they will ...

Public perception toward residential solar panels in Bahrain

The majority of the installation of solar power capacity is seen in Europe and China, whereas countries with the highest potential for solar energy still lag (WEC, 2016). One of the main drivers toward increasing adoption of RE technologies is achieving energy security, especially after the oil crisis in the 1970s, and along with sustainability drivers as seen in the ...
