Rental rooftop solar power generation scam

Overview

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal.

If you've received an offer for "free solar panels," it could be a scam. Always look for businesses you can trust - like Accredited Businesses using the BBB Seal.

The Consumer Financial Protection Bureau recently warned solar customers about hidden fees and deceptive statements about the financial benefits of solar. Rooftop solar has a fraud problem.

Remind prospective customers that while tax credits, rebates, and incentives might be available for solar purchasers who qualify, offers for "free" or "no cost" solar panels are scams.

The U.S. Department of Energy has warned the public about misleading solar ads, and the Federal Trade Commission has cracked down on telemarketing schemes that follow a similar playbook for harvest.

Solar panel scams target homeowners interested in installing solar energy systems. They involve scammers making false promises or tricking you into paying for services you'll never receive. Are free solar panels a scam?

Know that "free" or "no cost" solar panel offers are scams. The federal government does not install solar systems in homes for free. If you're considering whether solar energy is right for you, check out the Department of Energy's guide for homeowners and learn more. Or check out the Department of Treasury's guidance on clean energy.

What is a solar energy scam?

The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy or other home improvements designed to increase energy

efficiency. If you agree to the scammer's offer, it could cost you tens of thousands of dollars.
